

## As By A Wonder

I used to feel so lost – the world was just my foe  
No friends or any pals and not a place to go  
They said I was a freak – a bore without a clue  
I've never had a chance but all at once there's you  
*As by a wonder - As by a wonder*  
*As by a wonder I can start anew*  
You trust in what I say as if I can't be wrong  
You trust in what I do and tell me I am strong  
Since we're together I can keep bad thoughts at bay  
I've learned to laugh and greet the sunshine on my way  
*As by a wonder - As by a wonder*  
*As by a wonder I can start anew*  
You are mine now – things are fine now  
I see happy sunny days coming round the bend  
I see the smile on your face  
And everything's all right  
It's turning black to white  
*As by a wonder - As by a wonder*  
*As by a wonder I can start anew*  
Your thoughts are like the wind – just clear and fancy-free  
They open up the doors I've been to blind to see  
Since we're together I can keep my fears at bay  
I look ahead and all my fears are miles away  
*As by a wonder - As by a wonder*  
*As by a wonder I can start anew*  
It's so crazy that you dared to grab a fool like me
