

As Long As We Are Two

Remember our song
When life holds only sorrow
When things are going wrong
And all your plans turn out to be illusions
No reason to cry – even if you want it so
There`s gonna be a clue
There`s nothing you must fear
As long as we are two
Remember our song
Whenever you feel lonely
When days appear too long
And so-called friends pretend that they don`t know you
No need to be sad – may the whole world bring you down
There`s gonna be a clue
There`s nothing you must fear
As long as we are two
Side by side we`ll sail the ship across the ocean
Leaving all the many clouds of grey behind
You don`t need to worry – I swear
I`ll be with you wherever you need me
And show you I care
start looking ahead – you can always count on me
There`s gonna be a clue
There`s nothing you must fear
As long as we are two
