

Now And Then

Now and then I feel like flying
Now and then I'm truly high with happiness
Everything is easy
And only made to please me
Now and then
Now and then I drown in sorrow
Now and then I fear tomorrow more than hell
The whole world drives me crazy
It's all so weird and hazy
Now and then
The endless change of ups and downs
Is tearing me apart
I know I must be strong and hope I don't lose heart
I'm trying trying trying
I'm trying trying trying – may I get the winning card
Round and round the wheel is spinning
Every end is a beginning
I oughta look ahead
And laugh my cares away
I'm still myself – an all-time hero of the day
I'm sorry sorry sorry
I'm sorry sorry sorry – it's the only role that I can play
Now and then
Now and then
